

## Theatrical Rigging Connectors and Tools

FAST, EFFICIENT, SECURE

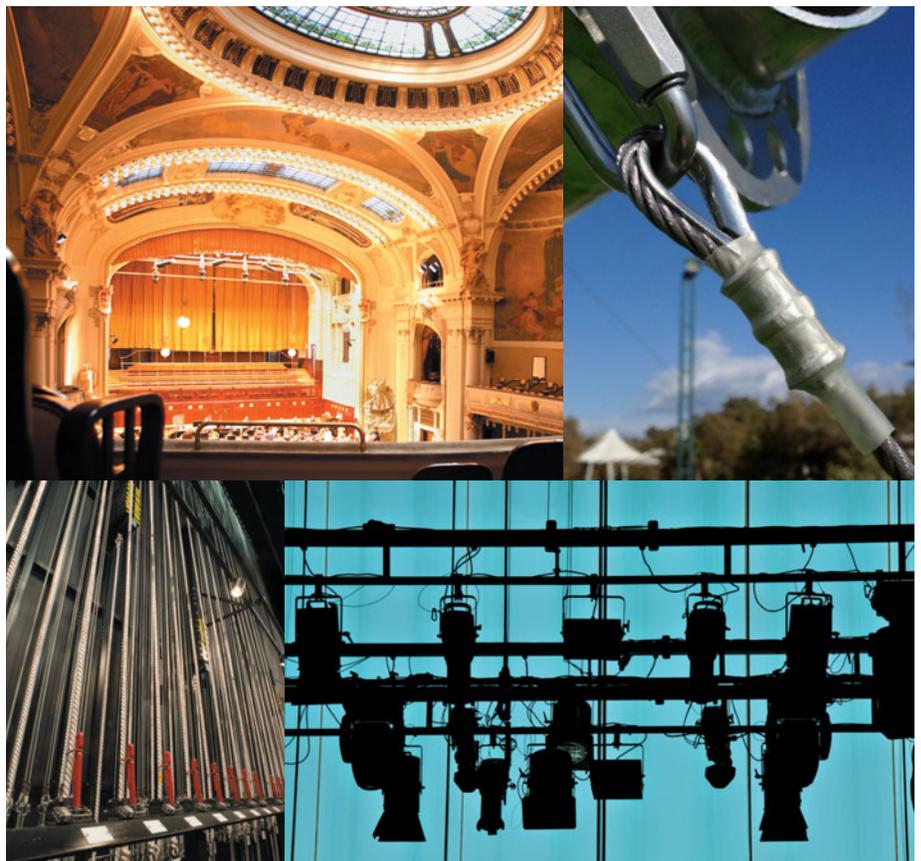

### Sleeves

- Solutions for wire rope, aircraft cable, and synthetic rope in sizes 1/32" to 5/8" (0.75mm to 16mm)
- Oval and stop sleeves – terminations for full and partial-tension requirements
- Oval sleeves hold mil-spec cable to 100% rated breaking strength (RBS)
- All connectors are gaugeable
- Hand tools, battery powered, hydraulic and pneumatic tools available

The Nicopress® system of compression connectors and tools provides a secure and permanent solution for making cable terminations. For more than 120 years, Nicopress sleeves and tools have been the termination solution of choice in the following industries:

- Theater
- Performing arts
- Motion picture
- Fall protection
- Indoor and outdoor entertainment

### Tools

# Nicopress® Product Specifications

### Connectors

We make copper, zinc-plated, tin-plated copper, black-oxide coated copper, and stainless steel oval sleeves, as well as copper and aluminum stop sleeves for cable sizes of diameters from 1/32" to 5/8" (0.75mm to 16mm).

### Manual Tools

#### 17-B4B Tool

- Lightweight
- One-handed manual field tool
- Use with smaller diameter cable in confined spaces
- Use with oval stop sleeves, 1/32" to 3/64" (0.75mm to 1mm) diameter

#### 64-CGMP Tool

- Manual tool
- Use with 1/16" to 5/32" (2mm to 4mm) oval sleeves
- Toggle action provides high mechanical pressure with low effort
- Cutter model also available

#### 635 Bench Tool

- Designed for larger diameter sleeves
- Dies available for oval and stop sleeves from 3/64" to 5/8" (1mm to 16mm)
- Available with hand, pneumatic, or hydraulic pump

#### 1-VC1 Manual Cable Cutter

- Cuts cable up to 3/16" (5mm) and fence wire up to 9 gauge (5mm)
- Clean cut without wires fraying
- Lower handle force so less fatigue
- Longer life blade
- Ergonomically balanced for easy, one-handed operation

### Battery Tools (Hydraulic)

#### 5606M 6-ton In-line Battery Swaging Tool

- Lightweight ergonomic design for easy one-handed operation
- 180-degree rotating head with forged jaws and protective brush guards
- Supplied with 2 Makita batteries and 120VAC charger for continuous operation
- Batteries have a state-of-charge indicator and tool has LED lighting

#### 5612M 12-ton Pistol Grip Battery Swaging Tool

- Optimized hydraulics offer 20% faster advance and 30% quicker retraction
- Selectable auto-retract switch
- Designed for use in single-handed operation
- 180-degree rotating head with forged jaws and protective brush guards
- Supplied with 2 Makita batteries and 120VAC charger for continuous operation
- Batteries have a state-of-charge indicator and tool has LED lighting

#### 7506M 6-ton Battery Cutting Tool

- Latched cutting head for superior shear strength on tough materials
- Head rotates 180 degrees for optimum maneuverability in tight workspaces
- Supplied with 2 Makita batteries and 120VAC charger for continuous operation
- Batteries have a state-of-charge indicator and tool has LED lighting

Battery tools available as tool only
